Yvonne Welz

**James & Yvonne Welz** developed Hoof Help Online and opened it to the public in 2011. They created it for one simple but very important reason. Utilizing the very specific trimming system that James has developed over the past dozen+ years, the horses in their care have simply achieved outstanding hooves, over and over again, on every breed, while living a variety of very ordinary domestic lifestyles. They wanted to help others attain the same great results! *Here are before and after photos from Hoof Help Online students:*
